Power BI Dashboard Task Ticket To Developer's

TICKET NO. T013

Dashboard Name : HR Management Dashboard

Dashboard Descriptions :

The HR Management Dashboard provides a comprehensive overview of key metrics related to employee data, training initiatives, and workforce dynamics. Gain insights into employee demographics, training activities, and the onboarding/exit trends. Track Saudization percentages, training costs, and turnover rates, empowering HR professionals with actionable insights to make informed decisions and optimize workforce management strategies. The interactive design allows users to explore data across departments, time periods, and individual employee records, fostering a data-driven approach to human resource management.
